DEPARTMENT OF

AGRICULTURE IMMIGRATION

OF VIRGINIA.

FEBR ARY 1949

LIST OF REGISTERED NURSERYMEN
YEAR ENDING AUGUST 31, 1949

DIVISION OF PLANT INDUSTRY
1112 State Office Building
Richmond 19, Virginia

L. M. WALKER, JR., *Commissioner of Agriculture*
G. T. FRENCH, *State Entomologist*

Virginia Nurseries and Dealers Registered for the Current Year

Kind of Stock	Number Registered
Narcissus Bulbs Only	9
Dealers	58
Growers Specializing in Strawberry Plants.....	2
Collectors of Mountain Ornamentals	6
Miscellaneous, Includes Boxwood, Ornamentals and Fruit Stock	191
Total number Registered	266
Total Number Acres Planted to Nursery Stock in Virginia by Registered Nurserymen.....	5,054
Total Number of Nursery Agents Registered to Date	340

Only those nurserymen are included in this list who were registered as of January 20, 1949, the date this leaflet was prepared. Approximately 20 nurseries were inspected during the summer of 1948 who have not as yet registered.

The sale of nursery stock in Virginia by anyone who has not received a registration certificate for the current year fixed by law as of September 1st through August 31st, is prohibited.
January 20, 1949.

VIRGINIA PLANT PEST LAW *and* QUARANTINE REQUIREMENTS

AFFECTING THE MOVEMENT OF NURSERY STOCK, OTHER PLANTS AND PLANT MATERIALS INTER AND INTRA STATE

In order that nursery stock may move into Virginia, it must be accompanied by a valid certificate of inspection issued by the proper state of origin authority or by the Federal Department of Agriculture. This certificate must be attached to the outside of each container.

Filing copies of certificates of inspection is not required.

Dealers in nursery stock, as well as **nurserymen** who operate within the State must register each year, fee \$10.00, payable annually. All certificates (Nurseries, Dealers, Agents) expire on August 31st and must then be renewed. Certificates must be carried at all times by anyone offering, distributing or selling nursery stock.

Agents operating in Virginia must be registered and carry certificates with them at all times. Agents' certificates are issued only upon application of parent nursery. Fee is \$1.00, payable annually, as for dealers.

Make certification and registration checks payable to **Treasurer of Virginia** and mail application and checks to this office.

Every person or firm offering or selling nursery stock within this State must be registered and carry copy of certificate at all times. One copy of certificate must be given to each customer at time of delivery or sale.

The out-of-state nurseryman or dealer **not actually operating** within this state is not required to register unless the state in which his stock originates requires registration of Virginia nurserymen or dealers, in which case a registration fee of \$10.00 is required.

The Virginia law authorizes reciprocal agreements.

All quarantines, Federal and State, must be complied with, including Japanese beetle, Black stem rust and Barberry and White pine blister rust quarantines.

Prices of Tags and Labels*

VIRGINIA PLANT QUARANTINES

JAPANESE BEETLE QUARANTINE No. 1

Plant, soil, manure, cut flowers, farm products and other restricted materials must not move out of areas quarantined by the State or Federal Japanese Beetle Quarantine except under special Japanese beetle certificates. Applications for Japanese beetle certificates should be mailed to Mr. Frank G. Winn, Agent, Post Office Box 5271, Richmond, Virginia, or Division of Plant Industry, Room 1112 State Office Building, Richmond, Virginia, or to the nearest branch office listed below.

The Virginia Japanese Beetle Quarantine should be in the hands of all Virginia nurserymen. Copies will be sent to those who apply for them to Division of Plant Industry, Room 1112 State Office Building, Richmond, Virginia. The infested or regulated area, as it is called, is extended from time to time, and

*Upon request this office will order through a local printer inspection and registration tags or gummed labels at prices listed above. Ordering tags or labels through this office is not required but all tags and labels should be exact copies of certificate.

those who move host material such as nursery stock should be advised as to the boundary lines of this area and thus avoid violating the quarantine regulations. Fifty northern and eastern counties as well as several isolated areas such as Charlottesville—Danville—Lynchburg and Roanoke are infested and under quarantine regulation.

Richmond area, includes area from Warrenton—Culpeper—Orange—Louisa—Goochland—Powhatan—Amelia—Dinwiddie—Prince George—Charles City and inclusive area.

Richmond area—Frank G. Winn, U.S.D.A., P. O. Box 5271, Richmond, Virginia, Telephone 6-8662.

Richmond area—Office of State Entomologist, Room 1112 State Office Building, Richmond, Telephone 7-0761.

Norfolk area, includes area from Brunswick County east, and from Williamsburg area, south.

Norfolk area—Dudley A. Raine, U.S.D.A., 415 Post Office Building, Telephone Norfolk 4-4244.

Eastern Shore area—C. E. Eifler, Room 205 Post Office Building, Main Street, Salisbury, Maryland, Telephone Salisbury 1508.

Northern Virginia area—J. A. Rheb, Room 214, 400 East Lombard Street, Baltimore 2, Maryland, Telephone Plaza 8460 Ext. 41 or Clifton 4786.

WHITE PINE BLISTER RUST QUARANTINE No. 3

This quarantine prohibits the dissemination, growing, or other usage of all species of currants and gooseberries in 33 mountainous counties of the State. It also authorizes representatives of the department to enter all premises and destroy living species of currants and gooseberries found growing in these areas with certain exceptions. It does not authorize the destruction of cultivated species in the protected areas so long as these plants are growing 1,500 feet or more from white pine stands.

BLACK STEM RUST QUARANTINE No. 4

This quarantine prohibits the planting and movement within the State of all species and varieties of barberry known to be the alternate hosts of the Black Stem Rust disease of small grain. It also prohibits the growing of varieties of Berberis or Mahonia known to be the alternate hosts of the disease in thirteen counties. The quarantine further permits representatives of the department to destroy living plants and varieties of such Berberis and Mahonias found growing in the thirteen protected counties.

TOMATO ROOT-KNOT NEMATODE DISEASE

QUARANTINE No. 6

This quarantine operates to protect six Northern Neck counties of the State from the introduction of the tomato nematode root-knot disease. It prohibits the movement into these counties of tomato plants which have not been inspected in accordance with the regulations of the quarantine and found to be free from this disease and which have attached a valid official certificate of inspection to that effect.

WHAT CONSTITUTES NURSERY STOCK *in* VIRGINIA?

PLANTS DEFINED AS NURSERY STOCK BY THE VIRGINIA CROP PEST LAW

Many people request a statement from this department concerning plants which are defined by the Virginia Crop Pest Law as nursery stock. In order that this information may be generally available, there is printed below a paragraph taken from the law as it is written and approved by the General Assembly during the year 1942.

Section 870-A. Nursery Stock—As used in this chapter, unless the context clearly requires otherwise, the term “nursery stock” includes the following: all trees, shrubs, and woody vines, including ornamentals, bush fruits, grape vines, fruit trees, and nut trees, whether cultivated, native or wild, and all buds, grafts, scions, and cuttings from such plants.

It shall also include such herbaceous plants, including strawberry plants, narcissus plants, and narcissus bulbs as the Commissioner of Agriculture and Immigration shall declare to be so included whenever he considers it necessary to control the movement of such plants or bulbs on account of any destructive insect or plant disease.

Florists' or greenhouse plants for inside culture or use, unless so declared by the Commissioner of Agriculture and Immigration as herein authorized, shall not be considered nursery stock, except that all woody plants, whether greenhouse or field grown, if for outside planting, are hereby defined as nursery stock. (Acts of 1942—Page 430.)

VIRGINIA PEST LAW AND QUARANTINE REQUIREMENTS

AFFECTING THE MOVEMENT INTER AND INTRA STATE OF NURSERY STOCK

OTHER PLANTS AND PLANT MATERIALS

In order that nursery stock may move into Virginia, it must be accompanied by a valid certificate of inspection issued by the proper state of origin authority or by the Federal Department of Agriculture. This certificate must be attached to the outside of each container.

Filing copies of certificates of inspection is no longer required.

Dealers in nursery stock, as well as nurserymen who operate within the State must register each year, fee \$10.00, payable annually. All certificates (Nurseries, Dealers, Agents) expire on August 31st and must then be renewed. Certificates must be carried at all times by anyone offering, distributing or selling nursery stock.

Agents operating in Virginia must be registered and carry certificates with them at all times. Agents certificates are issued only upon application of parent nursery. Fee is \$1.00, payable annually as for dealers.

Make certification and registration checks payable to Treasurer of Virginia and mail application and checks to this office.

Every person or firm offering or selling nursery stock within this State must be registered and carry copy of certificate at all times.

The out-of-state nurseryman or dealer not actually operating within this state is not required to register unless the state in which his stock originates requires registration of Virginia nurserymen or dealers, in which case a registration fee of \$10.00 is required.

The Virginia law authorizes reciprocal agreements.

All quarantines, Federal and State, must be complied with, including Japanese beetle, Black Stem Rust and Barberry and White Pine Blister Rust Quarantines.

PRESENT COST OF
VIRGINIA SHIPPING TAGS AND LABELS*

<u>Number</u>	<u>Tags</u>	<u>Gummed Labels</u>	<u>Number</u>	<u>Tags</u>	<u>Gummed Labels</u>

VIRGINIA CROP PEST LAW REQUIREMENTS

AFFECTING OUT-OF-STATE NURSERYMEN-DEALERS-AGENTS

In order that nursery stock may move into Virginia, it must be accompanied by a valid certificate of inspection issued by the proper state of origin authority or by the Federal Department of Agriculture. This certificate must be attached to the outside of each container.

Filing copies of certificates of inspection is no longer required.

Dealers in nursery stock, as well as nurserymen who operate within the State must register each year, fee \$10.00, payable annually. Dealers certificate expires on August 31st and must then be renewed. Certificates must be carried at all times.

Agents operating in Virginia must be registered and carry certificates with them at all times. Agents certificates are issued only upon application of parent nursery. Fee is \$1.00, payable annually as for dealers.

Make certification and registration checks payable to Treasurer of Virginia and mail application and checks to this office.

Every person or firm offering or selling nursery stock within this State must be registered and carry copy of certificate at all times.

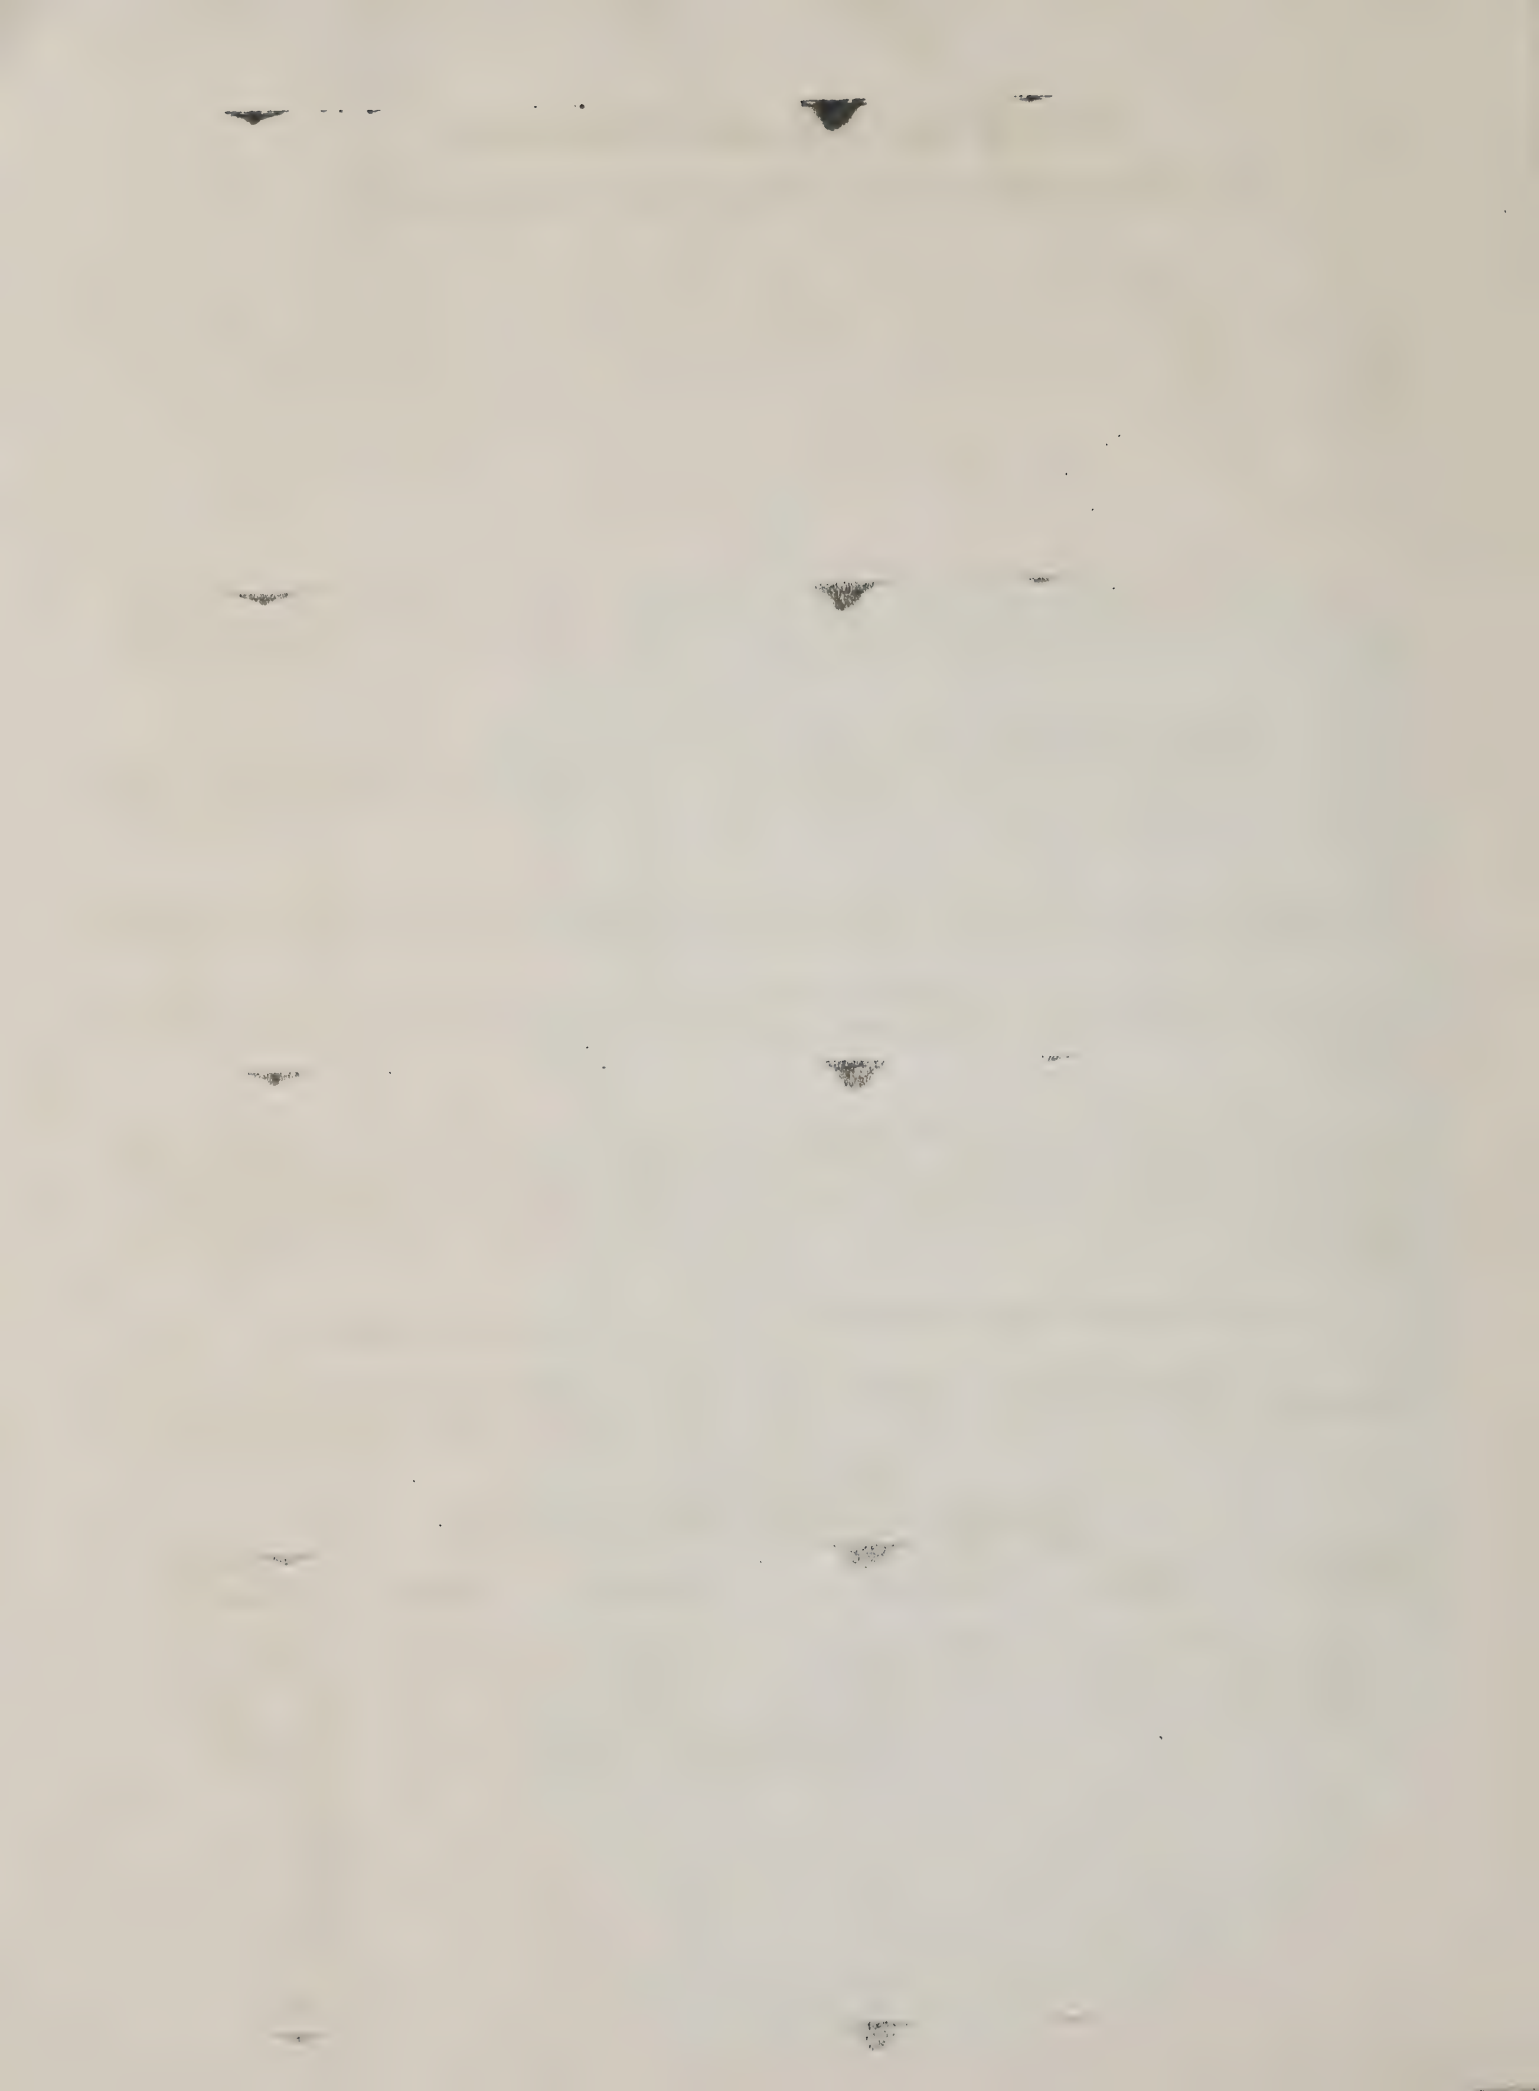

The out-of-state nurseryman or dealer not actually operating within this state is not required to register unless the state in which his stock originates requires registration of Virginia nurserymen or dealers, in which case a registration fee of \$10.00 is required.

The Virginia law authorizes reciprocal agreements.

All quarantines, Federal and State, must be complied with, including Japanese beetle and White Pine Blister Rust Quarantines.

PRESENT COST OF
VIRGINIA SHIPPING TAGS AND LABELS
